

These COVID-19 protocols for the Talbot Kennel Club (as of May 21 2021) are based on federal CDC and Maryland Department of Health guidelines and are subject to change.

Fully vaccinated people may refrain from wearing a mask indoors and outdoors and do not have to remain socially distanced. Masks may be worn if desired. Fully vaccinated is defined as 2 weeks after the single shot protocol or 2 weeks after the 2nd vaccine in the 2-dose protocol.

Those who are not vaccinated must continue to wear a mask and remain socially distanced when indoors, but may refrain from masks when outdoors and socially distanced.

Any individual feeling ill or running a fever should refrain from entering the building.

Any individual testing positive for COVID-19 should remain out of the building for 2 weeks after they test negative.

Any individual with known exposure should remain out of class for 2 weeks.

Class sizes may be increased at the discretion of the instructor.

Most importantly, be kind and honest and respectful of people's personal preferences.

Effective: May 21, 2021
